

Online Resources for Math Practice

Title	Website	Comments
Think Central	https://www-k6.thinkcentral.com/ePC/start.do	Username and password: pb##### (8-digit student number) Students can access assignments, if teachers have made assignments for students, or students can view any of the online resources made available to them, such as: Animated Math Models, Mega Math, and Destination Math.
Khan Academy	https://www.khanacademy.org/	This free website requires a parent or teacher to create an account for a child. It offers an almost unlimited number of math practice exercises, organized by topic, with instant feedback and progress data.
Learn Zillion	https://learnzillion.com/	This free website requires a parent or teacher to create an account for a child. This website offers an online database of short video lessons aligned to Florida Standards. The videos feature commentary, extra hints, tricks, and a "try-it-yourself" segment to have students practice on their own.
Xtra Math	http://xtramath.org/	This free website requires a parent or teacher to create an account for a child. XtraMath is a collection of free math activities that will help kids with basic fact practice to develop fluency. Kids will practice straightforward arithmetic problems that adapt as they learn. Parents can receive emails updating them on their child's progress.
Ten Marks	http://www.tenmarks.com/	This free website requires a parent or teacher to create an account for a child. A web-based adaptive math program closely aligned to the Florida Standards that offers math practice, enrichment and intervention.
Skoolbo	http://skoolbo.com/	This free website requires a parent or teacher to create an account for a child. This website or app combines numeracy and literacy in game format. As the learner works through the app, the site is constantly re-assessing and adapting to your child's needs so the app delivers an ideal mix of new content, not yet mastered content and revision content.
Learning Tools for Kids	http://palmbeachschools.org/learning_tools/elementary/	This page within the district website features many kid-friendly sites for a variety of uses.

Florida Standards Assessment (FSA) Portal

For parents with students in grades 3-5

To access training tests and answer keys for both mathematics and English Language Arts (ELA), as well as other information from the state about the new standardized assessment, visit <http://www.fsassessments.org/>.
